

# Growing Health, Equity & Opportunity in St. Louis

GREEN  
ST. LOUIS  
MACHINE

Cultivating  
environmental  
leaders of  
tomorrow!

GREEN  
ST. LOUIS  
MACHINE

## The Problem We're Tackling

St. Louis faces high food  
insecurity and childhood  
obesity rates.

Food apartheid contributes to  
diabetes and heart disease.

Schools lack access to fresh  
food & hands-on STEM  
learning.

## Get in Touch

Join Us in Growing a Healthier  
St. Louis Your investment fights  
food insecurity, strengthens  
schools, and cultivates  
healthyleaders. Together, we  
can transform communities.

## Our Mission & Model

We engage kids in STEM/STEAM, nutrition, and urban agriculture so they grow their own food, build leadership skills, and strengthen their communities.

### How we do it:

- ▶ STEM/STEAM learning with Tower Garden technology
- ▶ Nutrition & healthy eating
- ▶ Urban agriculture & community leadership

## Our Impact

- ▶ Serving 10 schools, 7 community organizations, 2 restaurants and a grocery store
- ▶ Partnered with UMSL College of Education
- ▶ Hundreds of students each year growing, cooking, and eating their own food
- ▶ Urban Agricultural Learning Center launched in 2024

Cultivating Environmental Leaders of Tomorrow

## Our Donors & Supporters

We are so grateful for all of our Donors and Supporters which includes:

*Anonymous (largest donor), Individual donors, Volunteers, Chefs and Passionate Urban Growers.*
